Lady Team – Captain, plus 1 Member

Sub-Junior Team – Captain, plus 1 Member

Junior Team – Captain, plus 1 Member

TEXAS STATE TEAM REQUIREMENTS

To qualify for a State Team, a shooter must comply with the following:

- 1.) Meet the state residency requirements as defined by the ATA and be in good standing with the ATA and the TTA.
- 2.) Meet the minimum championship target requirements for the designated teams.

Minimum Overall Target Requirements for the Target Year:

The annual Texas Trapshooters Association Teams shall be selected from the highest scores based on 1,200 Championship targets shot during the previous target year corresponding to the ATA shoot calendar year. Shooter must shoot a minimum of two (2) Zones and the State shoot to qualify. Minimum target requirements are as follows. Weather conditions may alter the total targets required for a given year.

Classification	Singles	Handicap	Doubles
1 st and 2 nd Team	2000	1500	1000
Veteran Team	2000	1500	800
Sr. Veteran Team	1500	800	500
Lady Team	1500	800	500
Junior and Sub-Junior	1500	800	500

The required targets shall be shot as follows:

800 High All Around (HAA) Zone Championship Targets shot at 2 of the 5 zone shoots. The 400 HAA Zone Targets consist of 200 16-yard, 100 handicap and 100 (50 pair) doubles targets.

400 High All Around (HAA) Texas State Shoot Championship Targets. The 400 State targets consist of 200 16-yard targets, 100 handicap, and 100 (50 pair) doubles.

The TTA First Vice-President will use the two highest HAA Zone scores and State Shoot HAA scores to determine team placement.

Automatic Application for Team Membership and Awards:

The First-Vice President will maintain a Texas State Team Standing report on the TTA website beginning with the first Zone shoot. Scores will be pulled from the Zone & State HAA reports and placed on the Texas State Team Report.

Based on scores recorded through the end of the target year the First-Vice President will place the shooters on the team where their score qualifies.

Category shooters have the choice to be placed on their Category Team over placement on the Texas State 1st Team only. The first time you declare a category, in either a zone or state shoot, you are that category for the State Team selection process, regardless of subsequent classifications in the ATA shooting year.

Ties among shooters will be resolved using their 400 High All around Texas State Shoot Targets and then, if still tied, the ATA composite year averages (singles, Handicap, doubles) for the target year, if necessary.

Awards:

All team members will be awarded a plaque for their accomplishments. Rings specially designed for the TTA State Teams will be awarded to the Top five 1st Team members and Captains of the respective Category teams the 1st time they are placed on an eligible Team. A shooter will only receive a ring once in their lifetime. Once teams and ring recipients are confirmed, by the First-Vice President, the TTA Board will approve Texas State Team members to be recognized at the next State Shoot.

The First-Vice President will maintain a physical list of 1st Time ring recipients and ensure the list is passed on to the next First-Vice President.
